

Press Release

The BOMA Calgary Foundation Creates Two Scholarship Programs in Calgary

For Immediate Release

Calgary, AB – October 2017 – The BOMA Calgary Foundation partners with Ambrose University and Southern Alberta Institute of Technology (SAIT) to create two new scholarships for deserving students.

A new scholarship has been donated by The BOMA Calgary Foundation to the Southern Alberta Institute of Technology (SAIT) to be awarded annually to a deserving architectural student. The award, called **The BOMA Calgary Foundation Award for Architectural Technology Students**, is a five-year scholarship (2017-2021) which will provide financial assistance to students in the Architectural Technology Program starting this fall through to 2021.

Additionally, The BOMA Foundation has collaborated with Ambrose University to create **The BOMA Calgary Foundation Award/Bursary**, a need based award, given to students who have a passion for business education but do not have the financial means to enroll in the Ambrose University Business Program without the support of BOMA.

Rita Skinner, Chair of The BOMA Calgary Foundation says, “It is an honour to collaborate with these two respected educational institutions to create opportunities for the next generation in our workforce. The BOMA Calgary Foundation was built by Calgarians whose business was buildings, so it is a natural fit for the Foundation to provide opportunities and financial assistance in the community in which we were built.”

###

About The BOMA Calgary Foundation

An independent, charitable organization dedicated to supporting the people of Calgary and surrounding areas. Formed by BOMA Calgary in 2011, the Foundation works closely with the public as well as Calgary’s professional industries.
